

Our brands manage different environmental areas, which are reflected in their sustainability reports published every year. At a corporate level we verify some transversal indicators to all our business units, which you can review in the following table:

	2015	2016	2017	Coverage
Emissions Range 1 (ton CO ₂ e)	138.598	150.563	148.723	42% (*)
Emissions Range 2 (ton CO ₂ e) (**)	237.203	258.709	215.515	42% (*)
Non-renewable energy consumption (MWh)	690.343,5	659.395,6	555.883	42% (*)
Energy intensity (kWh/m ²) (**)	-	-	306	42% (*)
Water Capture (thousands m ³) (**)	2.402	3.224	2.396	42% (*)
Residues (t)	46.009	63.298	42.006	42% (*)

*The coverage corresponds to the Business Units located in Chile, which represent the largest portion of transactions in relation to sales.
 **Indicators verified by Deloitte

You can check the verification of these indicators in the following document:
