

Discover our latest Sustainability initiatives!

“ In this new edition of our Sustainability newsletter, we would like to review with you the main milestones of the first quarter of this year. We highlight the publication of the Integrated **Annual Report 2021** and invite you to learn about such important advances as: **that our directory now has 3 women among its members, the distinction of the DJSI (Dow Jones Sustainability Index) to our Supermarkets business**, as the most Sustainable in Latin America, the regional launch of the **#FoodRescue** Program and the **use of 100% renewable energy** of the consumption of the shopping centers that we operate in Chile.

Secondly, we are proud to announce the valuable award, **Exceptional Women of Excellence**, that **Women Economic Forum Chile (WEF)** gave to **Heike Paulmann, the President of our Board of Directors**. This award recognizes business leaders with a distinctive vision and their contribution to building more inclusive cultures with a focus on gender equality and women empowerment.

These important advances inspire us to continue promoting good practices throughout the value chain and working to align our interest with those of all of our stakeholders. ”

CORPORATE

We proudly announce that the Cencosud board of directors was renewed and 1/3 of it are women

Four new members joined the company's Board of Directors for the 2022-2025 period, making Cencosud's board of directors one of the most diverse. The current President, Heike Paulmann, was joined by two women, both international figures: Mónica Contreras Esper, Colombian, and Lieneke Schol Calle, Peruvian.

Mónica has been president of Transportadora de Gas Internacional (TGI), of the Bogotá Energy Group (GEB) since 2020. In addition, she spent 20 years at the Colombian headquarters of Pepsico and seven of those years in the Andean segment (Colombia, Peru, Ecuador and Bolivia). Lieneke, meanwhile, is an industrial engineer and served as Minister of Production of Peru during the government of Pedro Pablo Kuczynski and was also Secretary of State. Lieneke also worked at Microsoft and served as secretary of the Digital Government Secretariat of the same country during 2017.

Likewise, two other new members were elected, representing the AFPs. They are Carlos Fernández Calatayud and Ignacio Pérez Alarcón.

Carlos has specialized in information technology. He was director of Entel until 2020 and has worked at Telmex, AT&T and IBM. Today he chairs the technology research company, Quantum Matrix SA, which is responsible for putting together developments that allow innovation in production processes of large industries. He is also vice president of Gesintel Compliance. For his part, Ignacio advises companies on financial and strategic issues. He was the CEO of Santander S.A. Corredores de Bolsa and Deutsche Securities Corredores de Bolsa, as well as Chairman of Merrill Lynch Corredores de Bolsa. Carlos is currently part of the Enjoy, Masisa and Edelpa boards.

These changes strengthen and empower our board to be more diverse and equitable.

ARGENTINA

Food Rescue Program, launched a decade ago, achieves national coverage

The Food Rescue Program achieved national reach ten years after its launch, during last January. Starting in 2011, our stores and distribution centers in Argentina progressively became part of this useful donor network. Today 261 stores participate (30 Jumbo, 158 Vea and Disco) and 3 distribution centers.

Through a partnership with the Argentine Network of Food Banks and the Salvation Army, Cencosud makes donations of products suitable for consumption. In 2021 Cencosud donated more than 1 million kilos of rescued products, managing to double the results obtained in 2020.

The commitment of the company and its collaborators and effective coordination with social organizations has allowed us to reach children and adolescents from vulnerable groups who daily attend community kitchens with a total of 2,139,000 plates of food and other hygiene items, cleaning, textile, bookstore and toy store.

BRASIL

Creation of the Brazil ESG Committee

This year, Cencosud Brasil created its ESG (Environmental, Social and Governance) Committee in order to promote the evolution of Brazil's strategy based on the actions and guidelines developed by the social body, as well as to analyze the KPIs and contributing to decision-making when deciding on which assets sustainable investments will be carry out, evaluating the environmental, social and corporate governance variables.

The first of the Committee sessions -which occur every two months- was held in February and was chaired by Sebastián Los, Cencosud Brazil Country Manager, who pointed out that "this is an important milestone for the Company, since a consistent governance process was built, allowing the analysis of ESG opportunities and risks and the making of strategic decisions that support the business sustainability the Brazilian market".

Other Cencosud executives participating in this Committee are: Emílio Nunes (CFO), Jacqueline Fontes (Human Resources Director), Sara Lizzi (Investor Relations Manager), Cíntia Liberato (Business Communications and Corporate Affairs Manager) and Fábio Oliveira (Social Responsibility manager).

CHILE

Supermarkets carried out the 1st version of Suppliers School

Local suppliers have always added differentiation to our offer to customers. Today we are work on plans specially designed for them in three dimensions: Training, Commercial Conditions and Marketing Actions that shape the Small Suppliers program.

A total of twenty micro and small companies participated in a training program in business management and logistics skills carried out by the technical training center of Chile, Inacap.

The program currently supports 128 suppliers and we expect to integrate another 40 before the end of the year.

Circular Fashion Program at Paris adds rental, repair and clothing customization to its offer

In line with our commitment to sustainable fashion and in order to mobilize, promote and foster innovative forms of responsible consumption, in November 2021 Paris launched its Circular Fashion program with second-hand and recycled clothing sales and purchase services. Last March, it added the rental, repair and customization of clothing as a way to expand and strengthen its value proposition.

The program is available at Alto Las Condes and Paris Lab with repair and customization, at the stores of: Alto Las Condes, Parque Arauco, Plaza Vespucio, Plaza Oeste and Marina Arauco.

PERU

Reuse of pallets in waste generation and carbon emissions

Building a sustainable logistics model is one of the pillars of our Sustainability strategy. Recently, the global sustainable solutions company, CHEP, awarded us the Sustainability Certificate for the reuse of pallets in our supply chain.

This effort translated into a 73% reduction in our environmental impact, which represents a saving of 224.639 dm3 of wood, a reduction of 4,114 kg. of waste and a decrease of 114,982 kgs. of carbon emissions.
