

## Fresh Cage-Free Eggs Commitment Cencosud Supermarkets Colombia

For Cencosud Colombia, Sustainability is the way to build transparent and inclusive brands that are connected with society and aware of their environments. In this way, we manage to create a relationship and a unique experience for clients and suppliers.

As a Company, we know that Animal Welfare is important to our clients and communities and, in line with **Cencosud's Animal Welfare Declaration**, Supermarkets Colombia, through the brands Jumbo, Metro and Spid, accept the challenge of the following commitments:

### For the Years 2023-2024

1. We will increase the size of the exhibition spaces for Fresh Cage-Free Eggs and encourage the inclusion of fresh cage-free eggs only.

### For the Year 2025

2. 100% of our fresh house brand eggs, available at Jumbo, Metro and Spid, will be Cage-Free.
3. At least 50% of the exhibition space in our facilities will be dedicated to Fresh Cage-Free Eggs.

We will work on these commitments through a Work Plan along with our suppliers, which will allow us to responsibly face the challenge of offering more sustainable products to our clients.
