

Fresh Cage-Free Eggs Commitment Cencosud Supermarkets Peru

For Cencosud Peru, sustainability is the way to build a transparent and inclusive business that is socially and environmentally aware. In this way, we manage to create a bond with clients and suppliers and offer a unique experience for them.

As a Company, we know that Animal Welfare is important to our clients and communities, and that is why we favor products with these characteristics. However, these attributes must be balanced with the national challenges we face in terms of nutrition and financial reality of Peruvian families. In that sense, and in line with our **Animal Welfare Declaration**, Cencosud Peru, through the brands Wong, Metro, and Spid, accepts the challenge these commitments impose:

In the period of 2022-2024

1. We will increase the size of the exhibition spaces for Fresh Cage-Free Eggs and encourage the inclusion of new suppliers.
2. We will promote the consumption of Fresh Cage-Free Eggs.

By the year 2028

3. 100% of our Cuisine & Co-brand Fresh Cage-Free Eggs, available in Wong and SPID, will come from Cage-Free Laying Hens.
4. 15% of our own-brand Fresh Cage-Free Eggs, available in Metro, will come from Cage-Free Laying Hens.
5. 20% of our external supplier portfolio will consist of Fresh Cage-Free Eggs in all of our stores.

We will work on these commitments through a work plan along with our suppliers, which will allow us to responsibly face the challenge of offering more sustainable products to our customers.
